

LED A-FRAME SIGN

Introducing the Backlit A-Frame Sign — a versatile one-sided lit signage solution designed for both commercial and safety applications. This illuminated board features a sleek, backlit panel with a slide-in display area and a magnetic rechargeable battery. It's ideal for businesses, cafes, and safety personnel. Use it to promote specials or communicate critical safety messages on the go.

Key Features:

- Customizable & removable transparent paper (*inquire for printing)
- Rechargeable magnetic battery
- Dry-erase surface for quick changes
- Rust, fade, and water proof design

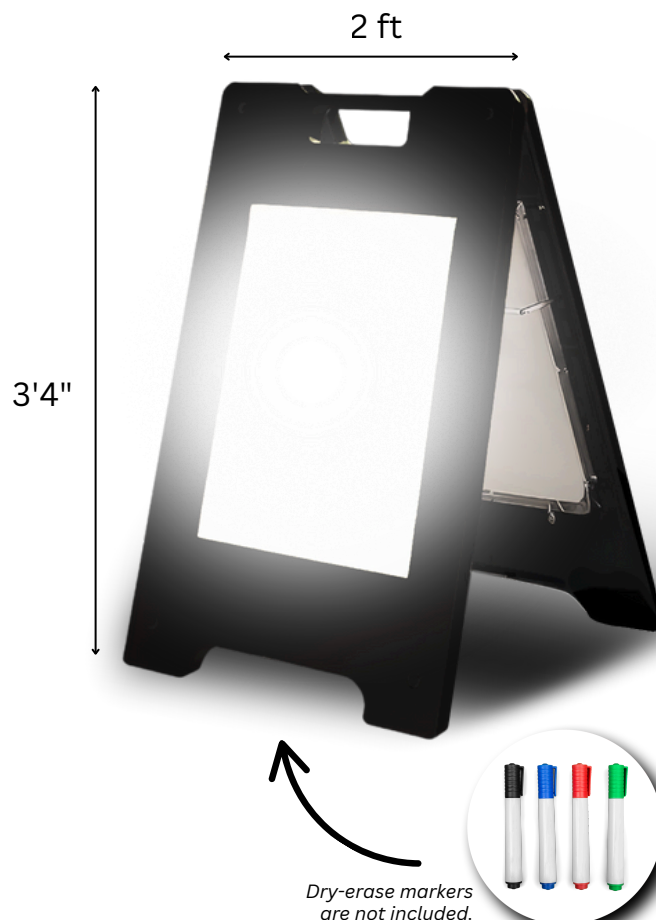

*Please Note: The provided 16.5"x22.5" paper is a translucent polyester backlit film that can be printed on. While we do not currently provide this printing service, you are encouraged to create and print your own custom designs.

Lighting Modes:

1. 25% brightness
2. 50% brightness
3. 100% brightness
4. Flashing

Includes: x1 LED A-Frame Sign, x2 Paper Inserts, x1 USB-C Charging Cable, x1 Magnetic Rechargeable Battery, x1 Wall Plug
