

ROUND COLUMN WRAP INSTALLATION INSTRUCTIONS

Step #1: Layout all pieces before starting installation to ensure the panel sizes and specific pieces are correct. There should be 3 pieces in total.

Step #2: To start, take two of the pieces and slide them together, interlocking the two pieces before putting on the column.

Step #3: Once interlocked and even, place the two-piece panel on the column.

ROUND COLUMN WRAP INSTALLATION INSTRUCTIONS

Step #4: Once in place, slowly interlock the final piece with the two-piece panel around the column, making sure that both sides are interlocked before sliding all the way down to the ground.

Step #5: Once all panels are interlocked and even, the Round Column Wrap is complete.
