

U-Channel Adaptor

UCA

Features

Designed to be used in conjunction with U-Channel Posts

TCT products are created to easily adapt to any of our sign base assemblies for use with steel u-channel posts

Heavy-duty steel configuration for use in places where PVC plastic just won't do

Signs are necessary for communicating to both pedestrians and drivers about their surroundings. Whether temporary or permanent, molded rubber sign base systems from TCT are a perfect solution for increasing vehicle and pedestrian safety. When designing your sign set-up, it is important to keep in mind the accessories that will be needed, including the type of post and anything needed to keep it in place. The sign base systems from TCT are easily customizable and include all the pieces to make sure that your sign base is ready to go the moment you get it out of the box.
