

Wall Protectors

WP-MD

When working with industrial equipment or a fleet of vehicles, it is imperative to keep the safety of workers in mind. Wall protectors from TCT are ideal for creating and maintaining a safe work environment. They are made of a durable molded rubber, designed to work both indoors and outdoors. The wall protectors feature reflective orange markings to increase awareness at night or in poorly-lit areas, and are easily mounted to walls of any type. In addition to acting as a safety mechanism, the wall protectors are ideal for preventing building damage. Adding the wall protectors to areas such as loading docks can increase safety and awareness. TCT's wall protectors are a great addition to any industrial area.
